

### **Upper Elementary Director**

*Candidate for the 2024-25 academic school year in our Upper Elementary 9-12 year old classroom. Our Upper Elementary Director is currently taking the Adolescent Secondary training to replace our existing Adolescent Director who is retiring after this year.*

*We would be very interested in making this a successful and smooth transition for our candidate. **Even if the candidate is currently taking the 9-12 training and would be amenable to self-directed teaching next year, you would be mentored by our current Upper Elementary Director. Country Meadows would be interested in reimbursing you for the Montessori training program as a part of our contract.***

*The school is very well established in this area and the 9-12 year old program very popular among our school community. Many of the students have been enrolled since our Toddler Program, however, since Covid-19 a couple of years ago, we have been selectively enrolling community students.*

*This is a welcoming, family-oriented school community. Our teachers and assistant teachers continue their employment for many years. Parents are easy to work with and our Administrator is supportive and in her position for 23 years as Head of School.*

*The 9-12 classroom typically enrolls approximately 20 students per year. Their schedule includes Music/Choreography, Physical Education/Fitness and Spanish. Our 6th graders typically move on to enroll in our 7th & 8th grade Adolescent program.*

*Country Meadows prides itself on the safety of our students, promotion of our school community, keeping with the Montessori philosophy and inclusion.*

*If you are available, we'd like you to consider scheduling a tour and visiting our current classroom to get an idea whether this is a good fit and future with us. Salary compensation based on education and experience in Montessori and is for a 21-payroll cycle paid every 2 weeks with additional income of 5 payrolls if employed during summers in our camp program.*
